

Ms. Amy Catherine Eskridge

September 19, 1987 - June 11, 2022

A brilliant mind left us when Amy Catherine Eskridge went to her eternal rest in the Lord on Saturday, June 11, 2022. At just age 34, Amy already had a beautiful vision for life and the cosmos. She had a genius for science and questioned the conventional wisdom on everything from the universe to the nanoparticles of the atom. She was also an astute entrepreneur as Chairwoman and President of The Institute for Exotic Science in Huntsville, AL, which she co-founded. She was greatly loved by her family and many friends.

Amy's passion for space grew from the start in The Rocket City where she was born on September 19, 1987. After her graduation from UAH with a double major in chemistry and biology, she became an interdisciplinarian and a master of electrical engineering, chemistry, physics, and genetic engineering.

Amy is survived by her parents, Kathy and Richard Eskridge, her brothers and sister-in law, Matt, Michael and Victoria Eskridge. Amy was preceded in death by her maternal grandparents, Margaret and Russell Vance, and paternal grandparents Marcella and Charles Eskridge.

Amy lived a life full of passion and wonder for the cosmos, and she was deeply loved by all who knew her. Her dear friend Sam Reid, CEO of Geometric Energy Corporation, is launching the company's next Earth Orbit satellite in October including Amy Eskridge as featured in memorial, and also in their DOGE-1 payload going later to the moon. In lieu of flowers, the family

asks that you donate in the name of Amy Eskridge to your favorite charity. The family will hold a celebration ceremony of Amy's life at a later date.

Imagine your own parents not believing you. The people that are supposed to love you the most didn't believe when she needed them the most

she was murdered because in a late conversation with a friend she declared that she would not kill her self and if she reports dead it is not a suicide.

“ I love and miss Amy everyday. She talks to me in my ear using language only she does lol. I wish so much I could of spent more time with her. She was part of my soul tribe. Her loss and what we all went through still stings. We loved her very much. I know she is at peace. She hopes and prayers her family is also. God bless her and her family.

She, may have been part of that chrononauts super secret program, and they were worried she would spill the beans or she already did to a close friend, Co worker, or pscyologist. And those people may have been taken out by obamas team, who have eliminated others who found out about the secret tesla tech, that they back engineered from the 40s. They've been at it for awhile.

With greatest sadness and feeling of great loss - to Family, Space community, women seeking to change the world for a better place - Amy was a courageous champion and leader. Beautiful person gone! I am conveying my deepest condolences to the Family. We are also preparing Luna commemorative and Moon NFT we were getting ready to offer Amy for all her beauty and contribution. With deepest sorrow Eva and Grant Blaisdell and Amy's friends in Los Angeles area.

I want to be like you, I don't care what they do to me, I know there is more to life out there besides what they are saying, my brain goes blank sometimes, thank you for everything you did, they are murders and we can fight against them

I want to become better, I know that consciousness is something we can control, gravity is something that is limited, not the fact its an 'unreal variable' it is maintied to keep control. Thank you for your findings I will look up to you and I will prove they murdered you, no matter how long it takes, I know this somehow links to you, especially the links to modern day.. I have nothing but admiration for what you do, I'm sorry if I come off as weird, I just want you to know that you are inspiring me to carry on, I am scared that I will find out to much and they will use technology on me to alter my thoughts, thank you for everything you have caused
