“ Uncle David... I was the only one of your nephews and nieces to call you David Allen. Cruising in Christine (AMC Javlin SST) had a mind of her own. Steering from the passenger seat as you fought with numb nuts in the back seat. When Ole boy (20s) wanted to fight your younger (13) nephew you peeking around the kitchen knife in hand (he was cooking) seeing pride because I would not back ground. Then hearing you "Hey, that is my Nephew ,bitch sit down." You always had my back and I had yours. The hours playing car tag (later useful) . You will be missed. I love you.

“ David, my little brother, you once told me that your most cherished memory of me growing up was watching me play my clarinet on the porch. You said that you felt so proud as a kid to have a sister that could play an instrument, I know that I told you b4 that my cherished memory of you was when I fell off the back of the mini bike and you were 8 years old and came running down the street to help me and you kept telling the kids in the neighborhood to stop laughing and to get away from your sister. Then you realized that I was laughing about it as well and you said, sissy, why are you laughing you could have gotten hurt and I said, I'm laughing cause it was funny how it happened but you made me have the biggest smile that day to see you as a child so full of love and care for me and acting like you were hurt someone if they didn't stop laughing, I knew then that you really love deep and that you did bro, you loved all of your family and you stayed true to that love for family, rest in peace my dear brother and know that I love you and will never ever forget the time we had. I will miss you calling me everyday and laughing about the silly things we did as kids, but I will see you again someday and we can pick up where we left off. I love you
