“ I only recently learned of John's passing, and I am sorry. In the mid-1980s, I came to preach for BRo. D. A. Lifegate, and met John then. He was like a brother to me, as I came back many times through the years. He called me maybe a year ago, and we had a great conversation. My love and prayers to Irene and the family. Heaven grows sweeter, and the brightness of this earth grows dimmer until one day heaven will hold it all. Dr. Michael A. Smith

“ John will be sorely missed. I worked with John for over 20 years and he was very skilled and proficient at what he did. He had a great attitude and was always welcoming and easy to work with.

“ I worked with John for many years. John was the person I could go to in order to get a design and we worked well together. While I worked with other designers, John had the ability to understand what I was looking for and to make it real. John cared alot about his work and his career was built by contributions to designs for many of the military systems developed by Redstone Arsenal. I am truly sorrowful for his passing and the world is a little less bright without him.
