“*Mary was a brief resident of Barfield Health Care in Guntersville, AL. I had the honor of serving Mary as “Her Driver”. Every Monday, Wednesday and Friday morning she would greet me with a smile, no matter how hard it was for her to give. I would transport her to Arab for treatment. Those twenty-five minute drive were always full of conversation. She loved her family, as was apparent when we provided updates to each other. I can truly say that heaven has welcome another angel home.
Rest in peace Mary! I will always remember you.*

*Thank you Archie, she absolutely loved you and your conversations. She said you were always so sweet to her, and didn't treat her like she was an old woman. She loved the quilt you gave her! She said that you were one of the very few at Barfields that didn't treat her like “the idiot in the corner.” Her roommate made her feel like an idiot and so did some of the workers. Honestly, you were the best part of that place.
I miss my mom so much!! She had no idea just exactly how much she was loved!!
Thank you so much for treating my mom so wonderful!! You don't know how happy that made her.*
